

RACQUET RESTRING & ACCESSORIES PRICE LIST

SYNTHETIC GUT STRINGS: *(nylon, solid core with wrap, economical all-rounders suitable for junior racquets, occasional and social players)*

Pro's Pro Gold Spiral II 16 1.30mm, gold, economical with a firm feel and gold filament spiral. **£15**

Pro's Pro Synthetic Gut 15L 1.35mm, white, a robust solid core string wrapped with a super-elastic filament layer offering an economical balance between durability and playability. **£15**

Gamma Advantage 15L 1.38mm, clear natural, puts the emphasis firmly on durability. **£16**

Tecnifibre Synthetic Gut 15 1.35mm, black, great value solid core with single wrap and anti-abrasion coating providing excellent all round performance with a softer feel. **£17**

Prince Synthetic Gut with Duraflex 16 1.30, gold, the #1 all-time classic synthetic gut, firm and crisp with good feel and all-round playability and performance. **£19**

MULTIFILAMENT STRINGS: *(nylon, the closest characteristics to natural gut suitable for all players seeking great feel, good tension maintenance, easy power and comfort)*

Acelon Wildfire/Supplemax 16 1.30mm, ivory/clear, unbeatable value for high quality multifilament strings, these provide comfort, power and feel. *limited availability* **£18**

Wilson Sensation 16 1.30mm & 15 1.35mm, natural, one of the most popular and economical multifilaments ever made providing excellent comfort and power with feel. **£20**

Head Velocity MLT 16 1.30mm, black, a supremely comfortable and powerful multifilament providing excellent playability and feel. **£21**

Yonex Tour Super 850 Pro 16 1.32mm, white, multifilament core with double winding nylon wraps and Yonex 'Power-Spin' coating for superior spin while maintaining the response and feel of natural gut. One of the very best of its type featuring excellent tension maintenance and optimized playability giving superb comfort and performance. **£25**

Tecnifibre NRG² 16 1.32mm, natural, the official string of the ATP Tour, NRG² has topped many polls as the best all round multifilament for simply unbeatable power, comfort, touch and feel. **£33**

POLYESTER STRINGS: *(very durable, resistant to notching & general wear but can feel very stiff, and more prone to breakage on mis-hits. Shaped profiles are designed to enhance spin potential while standard (round) profile versions are recommended for hybrids to minimise friction wear on the accompanying softer nylon strings. Popular with big hitters and heavy topspin players but not recommended for those with elbow/arm problems)*

Apollo Competition Poly 1.30mm, gold, economical monofilament polyester for durability, control and performance. **£15**

Babolat Pro Last 16 1.30, grey, a 100% polyester monofilament featuring a high level of control and durability, especially for frequent string breakers. **£17**

Dunlop Ice 17 1.25mm, clear, a durable and powerful monofilament string manufactured from an eye-catching transparent polyester. **£17**

Electre Venom Plus 17 1.25mm, yellow, firm monofilament polyester for durability, control and performance. Ideal for aggressive baseliners. **£17**

Electre Destroyer 16 1.30mm, white, soft monofilament co-polymer providing good feel for a polyester, gear shaped and twisted for ultimate spin and performance. **£18**

Signum Pro Plasma HEXtreme Pure 17 1.20mm, pearl white, a softer composition monofilament polyester featuring a hexagonal profile for extra spin and control. Great combination of power, spin & playability. **£20**

Head Sonic Pro 17 1.25mm, black or white, soft composition monofilament co-polymer polyester for a great balance between control, power, feel & durability. **£20**

Yonex PolyTour Pro 17 1.25mm, flash yellow or graphite, a durable monofilament co-polymer polyester offering a slightly softer feel than traditional poly strings. Pre-stretched for improved tension maintenance and very spin-friendly with good feel and control. As used by Nick Kyrgios & Martina Hingis, voted Poly of the Year 2014 on Stringforum.net. **£20**

Volkl Cyclone 17 1.25mm, black, a gear shaped polyester monofilament providing unbeatable spin potential. Add in the control and all round playability and it's one of the best in its class. **£21**

Volkl Cyclone Tour 16 1.30mm, red, a softer version of Cyclone providing a plusher feel and extra comfort, power and ball pocketing. It is also twisted to allow for added topspin potential. **£22**

Luxilon Adrenaline 16L 1.25mm & 16 1.30mm, platinum, as used by world #8 Andrey Rublev this is a great value offering from Luxilon offering a good level of comfort and power for a polyester string whilst providing ample control and access to spin. **£22**

Wilson Revolve 16 1.30mm, white, a tri-polymer monofilament providing a softer, muted feel, good ball pocketing and tension maintenance, along with excellent spin potential thanks to the snap back from the low friction surface. This string also performs very well as a cross string to improve comfort when paired with a stiffer, shaped poly main string. **£23**

Babolat RPM Blast 16 1.30mm & 17 1.25mm, black, a perennial favourite as used by Rafael Nadal, Fabio Fognini and Stanislas Wawrinka, this high density co-polyester features a silicon coated octagonal profile for power, durability and maximum spin potential. **£23**

Solinco Tour Bite 16 1.30mm, silver, a firm, high performance co-polyester monofilament with a crisp feel and a square profile for massive spin potential, providing a great response at lower tensions. Winner of *Poly of the Year* and *#1 String for Spin* for four years running on Stringforum.net. **£23**

Solinco Revolution 16L 1.25mm, blue, a responsive and durable medium firm 6-sided co-poly for the attacking player featuring good tension maintenance along with excellent control and access to spin. **£23**

Tecnifibre Razor Code 16 1.30mm & 17 1.25mm, blue, as used by Daniil Medvedev, a medium firm and durable co-poly ideal for hard hitters with long swings providing control and precision with good access to spin. **£25**

Luxilon Alu Power Rough 16L 1.25mm, silver, the most popular string on the ATP Tour, a firm co-polymer monofilament for a great balance of precision, spin & durability. **£25**

Head Hawk 16 1.30mm, grey, a firm, energy efficient monofilament co-polyester ideal for hard hitters with long swings, providing durability with optimised control and touch. **£25**

Yonex Multi-Sensa 16L 1.25mm, white, one of the very few multifilament polyester strings available, produced using Yonex's FRF (Fusion of Resin and Filament) method allowing for a smoother and more natural touch than standard monofilament polyesters, reducing impact shock whilst maintaining durability. **£26**

Luxilon Element 16 1.30mm, bronze, the most arm friendly polyester string in the Luxilon range, Element features a softer texture with enhanced touch and feel while delivering remarkable precision and spin along with durability and the absence of unwelcome vibrations. **£29**

Luxilon LXN Smart 16 1.30mm, black, unique fibre characteristics stiffen on fast swing contact for control and soften on slower contact for enhanced touch providing polyester-like performance with the soft feel of a multifilament. **£33**

HYBRID STRINGING Popular amongst the professionals and often a good choice for intermediate to advanced club players, this generally combines a polyester string for durability and control with a synthetic gut or multifilament string for increased feel & comfort. (For costing take the average of the two string prices, e.g. Hawk mains with Sensation crosses would be £22.50.) If durability and control are your main priority use the polyester as a main string; if you value feel and comfort more highly, install the poly as the cross string. Standard round profile polyester strings are recommended here as the edges on the shaped polys will wear away the nylon strings more quickly, or another option is to combine a geometric shaped firm polyester main (e.g. RPM Blast) with a softer poly cross (e.g. Sonic Pro or Multi-Sensa).

Some suggested Hybrids:

THE CLUB: Apollo Competition 16 1.30mm, gold (*mains*)
Pros Pro synthetic gut 15L 1.35mm, white (*crosses*)

An economical all round choice for durability and control with enhanced comfort. **£15.00**

THE DURABLE DUO: Babolat Pro Last 16 1.30mm, grey (*mains*)
Gamma Advantage 15L 1.38mm, clear white (*crosses*)

A tough pairing for maximum durability and control with enhanced comfort. **£16.50**

THE COMPETITION (firm): Electre Venom Plus 17 1.25mm, yellow (*mains*)
Prince Synthetic Gut w/Duraflex 16 1.30mm, gold (*crosses*)

A firm but forgiving combination for the competitive or team player. **£18**

THE COMPETITION (comfort): Head Sonic Pro 17 1.25mm, black or white (*mains*)
Wilson Sensation 16 1.30mm, natural (*crosses*)

A softer and more powerful setup whilst retaining the bite and control of the polyester main string. Substitute the 15 gauge 1.35mm Sensation in the crosses for greater durability (though slightly reduced feel). Reverse for enhanced feel, power & comfort with extra control. **£20**

THE SPIN MONSTER: Babolat RPM Blast 16 1.30 or 17 1.25, black **OR**
Solingo Tour Bite 16 1.30mm, silver **OR**
Solingo Revolution 16L 1.25, blue (*mains*)
Wilson Revolve 16 1.30mm, white (*crosses*)

A shaped polyester main string paired with a softer low friction cross string for maximum spin potential with a more forgiving feel. **£23**

THE TOURNAMENT: Luxilon Alu Power Rough 17 1.25mm, silver (*mains*)
Yonex Tour Super 850 Pro 16 1.32mm, white (*crosses*)

A high quality combination offering a great balance of control, spin and power whilst benefitting from the added comfort of the multifilament cross string. **£25**

THE TOURNAMENT ELITE: Tecnifibre Razor Code 16 1.30mm, blue **OR**
Head Hawk 16 1.30mm, grey (*mains*)
Tecnifibre NRG² 1.32mm, natural (*crosses*)

A top quality combination offering an unbeatable balance of control, spin and power whilst benefitting from the superb comfort of this multifilament cross string. **£29**
