

RACQUET RESTRING & ACCESSORIES PRICE LIST

SYNTHETIC GUT STRINGS (*nylon, solid core with wrap, economical all-rounders suitable for junior racquets, occasional and social players*)

- Pro's Pro Synthetic Gut 16 1.30mm, natural**, an economical all-rounder. £17
- Toalson Tournament 1.38mm, clear natural**, puts the emphasis firmly on durability. £17
- Tecnifibre Synthetic Gut 15 1.35mm, black**, great value solid core with single wrap and smooth anti-abrasion coating providing excellent all round performance with a softer feel. £18
- Head Synthetic Gut PPS 16 1.30mm, gold**, a lively and responsive string with co-polymer core & multifilament wrap. £19
- Prince Synthetic Gut with Duraflex 16 1.30, gold**, the #1 all-time classic synthetic gut, firm and crisp with good feel and all-round playability and performance. £20

MULTIFILAMENT STRINGS (*nylon, the closest characteristics to natural gut suitable for all players seeking great feel, good tension maintenance, easy power and comfort*)

- Wilson Sensation 16 1.30mm & 15 1.35mm, natural**, one of the most popular and economical multifilaments ever made providing excellent comfort and power with feel. £23
- Head Velocity MLT 16 1.30mm, black**, a supremely comfortable and powerful multifilament providing excellent playability and feel. £23
- Head Rip Control 17 1.25mm black/white & 16 1.30mm gold/natural**, featuring a multifilament nylon core wrapped in polyolefin ribbons to simulate the structure of natural gut, this is a comfortably firm string for control while remaining elastic and very easy on the arm, with the bonus of good spin potential thanks to its textured surface. £24
- Yonex Tour Super 850 Pro 16 1.32mm, clear white**, multifilament core with double winding nylon wraps and Yonex 'Power-Spin' coating for superior spin while maintaining the response and feel of natural gut. One of the very best of its type featuring excellent tension maintenance and optimized playability giving superb comfort and performance. £27
- Tecnifibre NRG² 16 1.32mm, natural**, an all time classic, NRG² has topped many polls as the best all round multifilament for simply unbeatable power, comfort, touch and feel. £34
- Tecnifibre X-One Biphase 15 1.34 & 16 1.30mm, natural**, renowned for being the closest multifilament to the feel of natural gut, comfortable and responsive even at high tensions. Consistently #1 in polls. £35

POLYESTER STRINGS (*very durable, resistant to notching & general wear but can feel very stiff, and more prone to breakage on mis-hits. Shaped profiles are designed to enhance spin potential while standard (round) profile versions are recommended for hybrids to minimise friction wear on the accompanying softer nylon strings. Popular with big hitters and heavy topspin players but not recommended for those with elbow/arm problems*)

- Babolat Pro Last 16 1.30, grey**, a tough 100% polyester monofilament featuring a high level of control and durability, especially for frequent string breakers. £18

- Electre Venom Plus 17 1.25mm, yellow**, firm monofilament polyester for durability, control and performance. Ideal for aggressive baseliners. **£18**
- Electre Destroyer 16 1.30mm, white**, soft monofilament co-polymer providing good feel for a polyester, gear shaped and twisted for ultimate spin and performance. **£19**
- Signum Pro Plasma HEXtreme Pure 17 1.20mm, pearl white**, a medium firm monofilament polyester featuring a hexagonal profile for extra spin and control along with a great combination of power & playability from this thinner gauge. **£21**
- Head Sonic Pro 17 1.25mm, black or white & 16 1.30mm, white**, soft composition monofilament co-polymer polyester for a great balance between control, power, feel & durability. **£21**
- Yonex PolyTour Pro 17 1.25mm, flash yellow or graphite & 16 1.30mm, flash yellow**, a durable monofilament co-polymer polyester offering a slightly softer feel than traditional poly strings. Pre-stretched for improved tension maintenance and very spin-friendly with good feel and control. As used by Nick Kyrgios & Frances Tiafoe, voted Poly of the Year 2014 on Stringforum.net. **£22**
- Prince Tour Xtra Response 15 1.35mm, silver**, highly durable but with enhanced feel and a slightly softer and more powerful response. **£22**
- Prince Vortex 17 1.25mm, red**, a very arm friendly and lively soft co-poly featuring excellent ball pocketing and a hexagonal profile for ultimate spin potential. **£22**
- MSV Swift 17 1.25mm, white**, soft and smooth, arm friendly, ideal in hybrids as the main for a younger player or an adult's cross string. **£22**
- Volkl Cyclone 17 1.25mm, black**, a gear shaped polyester monofilament providing unbeatable spin potential. Add in the control and all round playability and it's one of the best in its class. **£23**
- Volkl Cyclone Tour 16 1.30mm, red**, a softer version of Cyclone providing a plusher feel and extra comfort, power and ball pocketing. It is also twisted to allow for added topspin potential. **£24**
- Luxilon Adrenaline 16L 1.25mm & 16 1.30mm, platinum**, as used by world #8 Andrey Rublev this is a great value offering from Luxilon offering a good level of comfort and power for a polyester string whilst providing ample control and access to spin. **£24**
- Volkl V-Pro 17 1.23mm, blue**, a smooth, medium firm co-poly offering excellent control, ball pocketing and tension maintenance along with ample access to spin. **£24**
- Solinco Hyper G Soft 16 1.30mm, green**, a more arm friendly version of the popular Hyper G offering good playability and control plus intense spin from its square profile. **£24**
- Solinco Revolution 16L 1.25mm, blue**, a responsive and durable medium firm 6-sided co-poly for the attacking player featuring good tension maintenance plus excellent control and access to spin. **£24**
- Wilson Revolve 16 1.30mm, white**, a tri-polymer monofilament providing a softer, muted feel, good ball pocketing and tension maintenance, along with excellent spin potential thanks to the snap back from the low friction surface. This string also performs very well as a cross string to improve comfort when paired with a stiffer, shaped poly main string. **£25**
- Tecnifibre Razor Code 16 1.30mm & 17 1.25mm, blue**, as used by Daniil Medvedev, a medium firm and durable co-poly ideal for hard hitters with long swings providing control and precision with good access to spin. **£25**
- Solinco Tour Bite 16 1.30mm, silver**, a firm, high performance co-polyester monofilament with a crisp feel and a square profile for massive spin potential, providing a great response at lower tensions. Winner of *Poly of the Year* and *#1 String for Spin* for four years running on Stringforum.net. **£25**

Babolat RPM Blast 16 1.30mm & 17 1.25mm, black, a perennial favourite as used by Rafael Nadal, Fabio Fognini and Stanislas Wawrinka, this high density co-polyester features a silicon coated octagonal profile for power, durability and maximum spin potential. **£26**

Babolat RPM Power 16 1.30 & 17 1.25mm, brown, as used by Dominic Thiem offering greater power and comfort than RPM Blast while still providing great spin potential and control with a crisp feel. **£26**

Head Hawk 16 1.30mm, grey, a firm, energy efficient monofilament co-polyester ideal for hard hitters with long swings, providing durability with optimised control and touch. **£26**

Babolat RPM Rough 16 1.30, black, a slightly softer and more responsive version of RPM Blast with added dimples for extra spin potential. **£27**

Yonex Multi-Sensa 16L 1.25mm, white, one of the very few multifilament polyester strings available, produced using Yonex's FRF (Fusion of Resin and Filament) method allowing for a smoother and more natural touch than standard monofilament polyesters and reducing impact shock. **£27**

Yonex Poly Tour Rev 16L 1.25mm, mint, a terrific addition to the excellent Yonex range and colour matched with the Percept racquet, this is a shaped string for easy access to spin with a smooth, slightly muted feel and good level of control. **£27**

Tecnifibre Razor Soft 16 1.30mm & 17 1.25mm, black, as used by World #1 Daniil Medvedev, a terrific medium firm all-rounder providing control and precision with good access to spin, and infused with a flexible polyurethane for improved pocketing. **£27**

Luxilon Alu Power Rough 16L 1.25mm, silver, identical to the classic Alu Power but with a slightly textured surface for a great balance of precision, durability and enhanced access to spin. **£28**

Luxilon Alu Power 16 1.30mm & 17 1.25, silver, the most popular string on the ATP Tour, a medium firm co-polymer monofilament for a great balance of control, power & durability. **£30**

Luxilon Element 16 1.30mm, bronze, the most arm friendly polyester string in the Luxilon range, Element features a softer texture with enhanced touch and feel while delivering remarkable precision and spin along with durability and the absence of unwelcome vibrations. **£30**

Luxilon LXN Smart 16 1.30mm, black, unique fibre characteristics stiffen on fast swing contact for control and soften on slower contact for enhanced touch providing polyester-like performance with the soft feel of a multifilament. **£34**

HYBRID STRINGING Popular amongst the professionals and often a good choice for intermediate to advanced club players, this generally combines a polyester string for durability and control with a synthetic gut or multifilament string for increased feel & comfort. (For costing take the average of the two string prices, e.g. Hawk mains with Sensation crosses would be £24.50.) If durability and control are your main priority use the polyester as a main string; if you value feel and comfort more highly, install the poly as the cross string. Standard round profile polyester strings are recommended here as the edges on the shaped polys will wear away the nylon strings more quickly, or another option is to combine a geometric shaped firm polyester main (e.g. RPM Blast) with a softer poly cross (e.g. Sonic Pro or MSV Swift).

Some suggested Hybrids:

THE CLUB: Electre Venom Plus 17 1.25mm, yellow (*mains*)
Pros Pro synthetic gut 16 1.30mm, white (*crosses*)

An economical all round choice for playability and control with enhanced comfort. **£17.50**

THE DURABLE DUO: Babolat Pro Last 16 1.30mm, grey (*mains*)
Toalson Synthetic Tournament 15L 1.38mm, clear natural (*crosses*)

A tough pairing for maximum durability and control with enhanced comfort. **£17.50**

THE COMPETITION (medium firm): Head Sonic Pro 17 1.25mm, black or white (*mains*)
Prince Synthetic Gut w/Duraflex 16 1.30mm, gold (*crosses*)

A medium firm but forgiving combination for the competitive or team player. Substitute the 15 gauge 1.38mm Toalson in the crosses for greater durability (though slightly reduced feel). **£19**

THE COMPETITION (comfort): MSV Swift 17 1.25mm, white (*mains*)
Wilson Sensation 16 1.30mm, natural (*crosses*)

A softer and more powerful setup whilst retaining the bite and control of the polyester main string. Substitute the 15 gauge 1.35mm Sensation in the crosses for greater durability (though slightly reduced feel). Reverse for enhanced feel, power & comfort with extra control. **£22.50**

THE SPIN MONSTER: Solinco Tour Bite 16 1.30mm, silver **OR**
Solinco Revolution 16L 1.25, blue (*mains*)
Wilson Revolve 16 1.30mm, white (*crosses*)

A shaped polyester main string paired with a softer low friction cross string for maximum spin potential with a more forgiving feel. **£25**

THE TOURNAMENT: Luxilon Alu Power 16 1.30mm, silver (*mains*)
Yonex Tour Super 850 Pro 16 1.32mm, white (*crosses*)

A classic high quality combination offering a great balance of control, spin and power whilst benefitting from the added comfort of the multifilament cross string. **£28.50**

THE TOURNAMENT ELITE: Tecnifibre Razor Code 16 1.30mm, blue **OR**
Head Hawk 16 1.30mm, grey (*mains*)
Tecnifibre X-One Biphase 1.30mm, natural (*crosses*)

A top quality combination offering an unbeatable balance of control, spin and power whilst benefitting from the superb comfort and feel of this multifilament cross string. **£30.00**

Any other string of your choice can be supplied– please phone for price/availability.

Stringing with your own string supplied £14
